
Maximise our potential, to be the best we can be, every day.

2nd September 2024

Dear Parents/Carers,

I have amazing news. The Heys School has been judged by Ofsted as Good overall and in all inspection areas.

As we prepare to welcome our new year 7 tomorrow and the return of our year 11, followed by all year groups on Wednesday, I am thrilled to share this news with you all.

As you know, prior to the holidays we were inspected by Ofsted who were massively impressed with our students and staff commenting, "Pupils benefit from the calm atmosphere that permeates this friendly and welcoming school. Pupils are happy in school". They also said, "The work done by the school to support pupils, including those who are disadvantaged and those with SEND, is impressive"

This is testament to the collaboration and hard work of our governors, staff, students and parents/carers ensuring that the curriculum our students experience provides them with every opportunity to become valuable, resilient members of our community. I am incredibly proud of all of our students and staff.

You can find a copy of the full school inspection report on the home page of our website on www.theheys.school

I would like to thank you for constantly supporting our amazing school as we pledge to go from strength to strength over the course of this academic year.

Kind regards

Mr P McKendrick
Headteacher
