11.02.25	We would like to remind you that stress balls and fidget toys are not allowed to be brought into school by students. We have found that they can be a distraction in the classroom environment. Our goal is to maintain a focused and productive learning environment for all students. We want to assure you that our Inclusion Department is dedicated to supporting students who may need additional strategies to manage their focus and engagement. They work closely with students to provide tailored support and implement effective strategies that cater to individual needs. Kind regards, The Heys School

17.11.24	We are reaching out to seek your support in reinforcing the importance of using the toilets before school, during break, lunch and after school. When students leave the lesson to go to the toilet, they disrupt their learning, sometimes missing up to 10 minutes of the lesson and disrupting the learning of others as they leave and re-enter the classroom. While we understand that there may be limited occasions where students need to use the toilet during lessons, students should only miss learning to use the toilet in emergencies. In this situation, we do provide gender-neutral toilets. Using the Arbor app, you can now see when your child is using the toilet during lessons. Thank you for your understanding and support
